

AMENDMENT TO DRAWING

The Examiner objected to the drawing of Figure 2 because it was not clearly seen, because a housing for the light source was not shown and that the handheld housing was not shown. In addition the Examiner objected to the drawing because the numeral 40 was not shown. The Applicant has submitted a new drawing Replacement Sheet wherein the device is more clearly shown, and the numeral 40 has been added. In addition, the Applicant has cancelled from the claim the housing for the light sources. However, the Applicant does contend that the plastic molding such as the handheld grip and eye piece, as clearly depicted, for the rest of the device shows "housing for supporting all components of the system for ready portability".

REMARKS

Since Applicant has now addressed all rejections and objections the patent is now believed to be in condition for an allowance, said allowance being earnestly sought.

Respectfully submitted,

Jill C. Shedd
Reg. No. 55,610
